

RESTOREX[®]

Next Generation Penile Traction Therapy

An easy and effective solution for treating curvature and lost length resulting from Peyronie's disease

- ✓ Developed in cooperation with Mayo Clinic
- ✓ Results from only two, 30 minutes treatments per day for 12 weeks
 - 94% of men gained length, an average of 1.6cm or 11%*
 - 77% of men reduced curvature, an average of 17° or 28%*
 - 80% of men initially unable to have sex due to curvature regained the ability to do so.*
 - 89% preferred RestoreX over other traction devices*
 - No long-term complications were associated with RestoreX treatment.*
- ✓ Invented by a Urologist specialising in Men's Health
- ✓ Patented technologies include Opposite
 - Angular Force and Optimised
 - Traction Zone
- ✓ Available and serviced in Australia
- ✓ 12-month warranty
