MODULAR DISPOSABLE PLATFORM

370mm working length

5mm trocar compatibility

540 degrees
jaw rotation

PRECISION.
FLEXIBILITY.
CONTROL.

SIMPLE. INTUITIVE. EFFICIENT.

Robust, compact & lightweight, HandX™ is an electromechanical, controlled laparoscopic device that merges man and machine, for advanced 8 degrees of freedom (DOF) MIS.

8 DEGREES OF FREEDOM

Offers 8 DOF (4 motorized, 4 manual) laparoscopic tools with advanced 8 degrees of freedom (DOF) MIS.

540 DEGREE JAW ROTATION

Up to 540 degrees jaw rotation, surgeon-driven jaw movements mimic natural finger gestures.

LIGHTWEIGHT & LOW FATIGUE

SCALABLE 8 DOF
