PRODUCT DETAILS

LIGHTWEIGHT

Lightweight to help reduce fatigue.

EASY MANOEUVRABILITY

Superior deflection and precise tip motion makes navigation easy.

HIGH-QUALITY IMAGING

Autofocus, white balance and adaptive LED light control function guarantee clear and sharp images - better diagnosis and treatment of tumours.

FAMILIAR FUNCTIONS

Controls and working channel layout are designed to bring a familiar feel to reusable scopes.

SINGLE-USE STERILISATION

Each scope is sterilised and intended for single-use, eliminating the risk of cross-contamination between patients, health care providers, and staff due to ineffective reprocessing.

NO REPROCESSING/REPAIRS REQUIRED

Streamline workflow and enhance efficiency by eliminating labour- and cost-intensive reprocessing and repairs.

ALL IN ONE HOSPITAL SOLUTION

The full range of Innovex single use endoscopes all connect to the same digital video processor (DVP).
