

# Erectile Dysfunction

Approximately one in four men over the age of 60 are affected by erectile dysfunction. SomaTherapy-ED Vacuum Erection Therapy mimics the body's natural processes to help men overcome erectile dysfunction in order to return to a healthy, satisfying sex life.

Vacuum Therapy for ED uses completely natural means to achieve natural, sustainable erections—without drugs, chemicals, or invasive procedures.

## Why choose SomaTherapy ED?

- Unlike medication, SomaTherapy ED is designed to work immediately.
- Patient controlled.
- The SomaTherapy ED package comes with tension bands which are designed to maintain the erection for the duration of intercourse.
- Available in manual or battery operated variations.

## How SomaTherapy Works

SomaTherapy ED is designed to produce an erection at the touch of a finger by combining vacuum technology with the natural function of the body.\*

SomaTherapy ED can be used in conjunction with Erectile Dysfunction medication, or can be used as a supplementary therapy. Please consult your doctor for further information about the range of available treatment options, and to discuss whether SomaTherapy ED is the right treatment for you.

1. Apply the system over the penis.

2. Activate the pumping mechanism. This will draw the blood into the penis, causing an erection.

3. Once the penis is fully engorged, the tension ring is placed at the base of the penis, maintaining the erection.

\* Full operating instructions are contained in the instruction manual. Please read and follow instructions contained in the instruction manual and DVD before use of the device.

## SomaTherapy-ED Touch II

Ergonomically designed for men coping with arthritic finger joints and limited dexterity. With just a push of the button, this super-quiet battery operated system does all the work for you.

The Touch II comes with: Carrying Case, SomaTherapy-ED Lubricant, Tensions Systems, Tension System Loading Cone, Cylinder Sizing Inserts, a Training Manual and an instructional DVD.

### Touch II VED System

- Super-quiet battery operation
- Activation of the pump at the press of a button
- Ergonomic design for men with limited dexterity or arthritic finger joints
- Selection of tension ring
- Lubricant
- Instructional DVD and manual

Order code: AUG 15013
